Contents Volume 154

v Publisher's Note
1 Loading and scheduling of a flexible assembly system by mixed integer programming
T. Sawik
20 Algebraic properties of location problems with one circular barrier
K. Klamroth
36 Average performance of greedy heuristics for the integer knapsack problem
R. Kohli, R. Krishnamurti and P. Mirchandani
46 Global optimization and multi knapsack: A percolation algorithm
D. Fortin and I. Tsevendorj
57 New facets and a branch-and-cut algorithm for the weighted clique problem
M.M. Sørensen
71 Minimax and symmetric duality for a class of multiobjective variational mixed integer programming problems
X. Chen
84 Minimum cost spanning tree games and population monotonic allocation schemes
H. Norde, S. Moretti and S. Fijs
98 Some issues on consistency of fuzzy preference relations
E. Herrera-Viedma, F. Herrera, F. Chiclana and M. Luque
110 A method based on multiobjective optimization for deriving a ranking from a fuzzy preference relation
E. Fernandez and J.C. Leyva
125 Assessing weights of product attributes from fuzzy knowledge in a dynamic environment
Y.-C. Hu, J.-S. Hu, R.-S. Chen and G.-H. Tzeng
144 A model for multiple brand choice
G. Baltas
150 A buyer–seller game model for selection and negotiation of purchasing bids: Extensions and new models
J. Zhu
157 Mean–Gini analysis in R&D portfolio selection
J.L. Ringuest, S.B. Graves and R.H. Case
170 Design and implementation of an optimization-based decision support system generator
S. Maturana, J.-C. Ferrer and F. Barañao
184 Decisions rules and flow networks
Z. Pawlak
191 Evaluating Kohonen's learning rule: An approach through genetic algorithms
B. Curry and P.H. Morgan
206 Modeling consideration sets and brand choice using artificial neural networks
B. Vroomen, P.H. Franses and E. van Nierop
218 Performance models of a proxy cache server: The impact of multimedia traffic
H.K. Cheng and I. Bose

doi:10.1016/S0377-2217(03)00769-0

230 Optimal installation policies of additional water supply facilities for a growing population
R.R. Sharma, O.N. Singh and P.R. Raha
236 A methodology for strategic sourcing
S. Talluri and R. Narasimhan
251 Pricing combinatorial auctions
M. Xia, G.J. Koehler and A.B. Whinston
271 Outsourcing inventory management decisions in healthcare: Models and application
L. Nicholson, A.J. Vakharia and S. Selcuk Erenguc
291 Controlling sales force turnover costs through optimal recruiting and training policies
R.Y. Darmon
304 Two genetic algorithms to solve a layout problem in the fashion industry
J. Martens
323 Solving group Steiner problems as Steiner problems
C.W. Duin, A. Volgenant and S. Voß
330 A note on the assignment problem with seniority and job priority constraints
A. Volgenant
336 Corrigendum

337 Preface: DEA and its uses in different countries
W.W. Cooper, L.M. Seiford, E. Thanassoulis and S.H. Zanakis
345 Returns to scale in different DEA models
R.D. Banker, W.W. Cooper, L.M. Seiford, R.M. Thrall and J. Zhu
363 Improving envelopment in data envelopment analysis
R. Allen and E. Thanassoulis
380 Suitability and redundancy of non-homogeneous weight restrictions for measuring the relative efficiency in DEA
V.V. Podinovski
396 A cost Malmquist productivity index
N. Maniadakis and E. Thanassoulis
410 Sensitivity and dimensionality tests of DEA efficiency scores
A. Hughes and S. Yaisawarng
423 A balanced scorecard analysis of performance metrics
R.D. Banker, H. Chang, S.N. Janakiraman and C. Konstans
437 Eco-efficiency analysis of power plants: An extension of data envelopment analysis
P.J. Korhonen and M. Luptacik
447 Dominance-based measurement of productive and environmental performance for manufacturing
K. Triantis and P. Otis
465 DEA-like models for the efficiency evaluation of hierarchically structured units
L. Castelli, R. Pesenti and W. Ukovich
477 Analysis of trends in technical and allocative efficiency: An application to Texas public school districts
R.D. Banker, S. Janakiraman and R. Natarajan
492 Evaluating solvency versus efficiency performance and different forms of organization and marketing in US property–liability insurance companies
P.L. Brockett, W.W. Cooper, L.L. Golden, J.J. Rousseau and Y. Wang
515 Competitive effects on teaching hospitals
S. Grosskopf, D. Margaritis and V. Valdmanis
526 Bankruptcy prediction using a data envelopment analysis
A. Cielen, L. Peeters and K. Vanhoof

533 Using frontier efficiency models as a tool to re-engineer networks of public sector branches: An application to the Hellenic Tobacco Organization
A.D. Athanassopoulos
548 Evaluating the performance of professional golfers on the PGA, LPGA and SPGA tours
H.O. Fried, J. Lambrinos and J. Tyner

563 Group decision-making using a fuzzy linguistic approach for evaluating the flexibility in a manufacturing system
R.-C. Wang and S.-J. Chuu
573 Singular value decomposition in AHP
S.I. Gass and T. Rapcsák
585 Developing sorting models using preference disaggregation analysis: An experimental investigation
M. Doumpos and C. Zopounidis
599 Managing uncertainty in orthopaedic trauma theatres
J. Bowers and G. Mould
609 Linear production games with committee control: Limiting behaviour of the core
E. Molina and J. Tejada
626 Heuristic methods for gang-rip saw arbor design
Y. Fathi and V. Aksakalli
641 A nonlinear optimization package for long-term hydrothermal coordination
J. Castro and J.A. González
659 Algorithms for distributing telecommunication traffic on a multiple-ring SONET-based network
J.C. Smith
673 On the application of stochastic models in nuclear power plant maintenance
E.K. Doyle
691 Financial analysis of civil reserve air fleet participants using data envelopment analysis
W.F. Bowlin
710 Integrating purchasing and routing in a propane gas supply chain
W.-C. Chiang and R.A. Russell
730 Inventory control of spare parts using a Bayesian approach: A case study
K.-P. Aronis, I. Magou, R. Dekker and G. Tagaras
740 Mathematical models for applying cell suppression methodology in statistical data protection
J.-J. Salazar-González
755 Technological change and efficiency in the presence of quasi-fixed inputs: A DEA application to the hospital sector
P. Ouellette and V. Vierstraete
764 Borrowing cost reduction by interest rate swaps—an option pricing analysis
W.T. Yu, W.K. Pang and L.K. Li
779 Market segmentation by maximum likelihood clustering using choice elasticities
H. Hruschka, W. Fettes and M. Probst
787 Monopolistic price setting under fuzzy information
B.F. Arnold, N. Hauenschild and P. Stahlecker
804 Estimating a fuzzy term structure of interest rates using fuzzy regression techniques
J. de Andrés Sánchez and A.Terceño Gómez
819 Customer satisfaction analysis: Identification of key drivers
M. Conklin, K. Powaga and S. Lipovetsky
828 Contents Volume 154
